ADDICTION TREATMENT CENTERS

PRESS KIT

Palm Springs

MISSION STATEMENT

“Changing the world, one family at a time...”

WHO WE ARE

iRecover is more than a company providing the highest quality treatment for addiction and alcoholism...it is the belief that an evidence based 12 step program can provide the foundation for life long sobriety.

At iRecover we are a company founded and run by partners whose personal success stories infuse the very fabric of our core values. Honesty, Service, Compassion, Communication and Unity set us apart as our individualized care gives our participants the learned skill set to recover from a seemingly hopeless state of mind and body.

At iRecover there is an answer....one step at at time.

THE TOUR

Our priority is providing a safe and serene environment to our participants.

With over 30 beds in a resort style facility our premiere level of care provides an oasis of peace nestled into the beautiful Palm Springs mountainside.

THE PROGRAM

We use the iRecover tablet as a classroom tool to deliver our 12 Step and Cognitive Behavioral Therapy (CBT) extended programs to our participants. For those in need of residential treatment, iRecover offers standard classroom programs that boast a success rate between 70 and 80%. We also offer one-to-one therapy sessions, along with off-campus 12-step meetings and a real world approach to building skills for life long recovery.

Through this unique and innovative approach, iRecover delivers course materials on all tablets as part of their interactive experience. After leaving treatment, clients maintain ownership of their tablets and use them for ongoing counseling using video chat as part of their after care as well as dedicated daily phone meetings.

THE TEAM

— DRUG OVERDOSES —
KILL MORE
 THAN CARS, GUNS, AND FALLING.

Falling 28,360 deaths

Guns 32,351 deaths

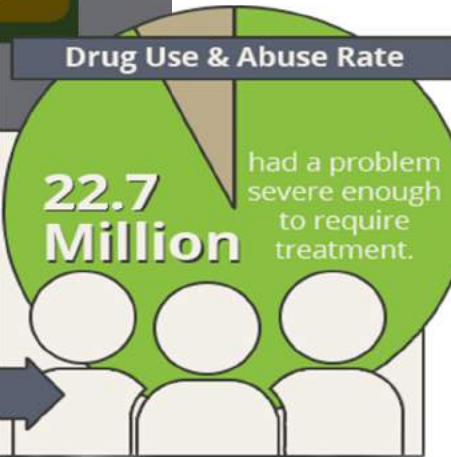

Traffic accidents 33,692 deaths

Drug overdoses 41,340 deaths

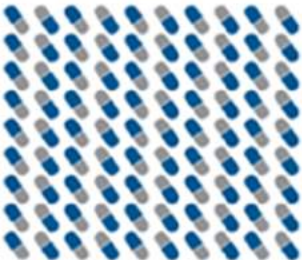

(16,917 from opioid pain medicine)

THE STATS

In the U.S.
 1 person **DIES** every **19 mins**
 from a drug overdose, a tragedy driven largely by the misuse of prescription painkillers.³

Between 1993 and 2005 the proportion of college students abusing prescription drugs went up dramatically:

6600

people per day begin taking prescription drugs for non-medical use⁴

BETWEEN 1991 AND 2010 CONSUMPTION OF PRESCRIPTION STIMULANTS INCREASED FROM 5 MILLION TO 45 MILLION²

PILL SOURCES⁶

- 72%** from friends and family
- 17% prescribed by one doctor
- 7% other sources
- 4% drug dealers

OUR VISION

“Everyone, at any given time can change their life...we are driven by that truth. And with that passion we strive to instill hope, happiness and love for a lifetime in recovery...free of drug addiction and alcohol abuse.”

OUR CORE VALUES

We are a
12-step based program
utilizing
Honesty
in
Service
with
Compassion
and
Communication
in
Unity
