RE: SB 1352 (Hueso) Gas corporations: biomethane procurement
SUPPORT

Dear Chair Holden,

On behalf of the Greater Coachella Valley Chamber of Commerce, I would like to express my strong support for SB 1352, which would require California natural gas utilities to procure at least 20 percent of gas for residential and small- to medium-sized businesses from renewable sources.

The Greater Coachella Valley Chamber of Commerce is a business membership organization representing the Coachella Valley. We support our members through legislative advocacy, education, networking, and other community-based opportunities.

As part of our 2020 Legislative Advocacy Platform, we support “additional in-state reliable energy generation, infrastructure/transmission and renewable generation balanced to maintain a robust and economically viable economy”. We believe this bill meets that criteria.

For these reasons, we SUPPORT SB 1352 and respectfully request your "Aye" vote.

Sincerely,

Joshua R. Bonner
President and CEO
Greater Coachella Valley Chamber of Commerce
